Health

DC Department of Behavioral Health (Prime)

V-Tech supports the Department of Behavioral Health (DBH) at St. Elizabeth's Hospital for Adult Patient Mental Acute Care and the District's Comprehensive Psychiatric Emergency Program (CPEP). Our Clinicians, RNs and CNAs health professionals provide emergency and in-patient psychiatric evaluative treatment, monitoring and intervention services.

Centers for Medicare and Medicaid Services (CMS)

The Centers for Medicare & Medicaid Services (CMS) mandates strict requirements for Medicaid and Medicare outreach programs to guarantee that eligible individuals can access vital health benefits. As a dedicated subcontractor, V-Tech collaborates with managed care organizations to deliver accurate, transparent, and culturally competent information on enrollment, eligibility, and benefits, ensuring that each enrollee's unique needs are met through comprehensive case management support. Our outreach efforts are strategically focused on underserved and hard-to-reach populations, leveraging partnerships with community organizations to extend our reach and significantly amplify program impact.

Legal

Operation Allies Welcome (Legal Services)

V-Tech supports operation Allies Welcome (OAW) and its ongoing effort to bring Afghans seeking citizenship into the United States. Many of the refugees worked on behalf of the United States. Our team of attorneys provide, intake, counseling, legal advice and support for refugees and their derivatives seeking U.S. citizenship and or parole.

Department of Homeland Security, Office of Refugee Relocation (ORR) (Subcontractor)

V-Tech Solutions, Inc. provides crucial legal assistance to Afghan refugees seeking asylum. This entails a team of approximately 30 immigration attorneys nationwide in 12+ major cities who meet with asylum seekers, conduct interviews, advise on eligibility for relief under immigration laws, and assist with preparing applications. Our team of immigration attorneys conduct preliminary work in preparation for client's interviews and hearing before U.S. Citizenship and Immigration Services.

Technology

Food and Drug Administration (Prime)

V-Tech provided Operations and Maintenance support for the FDA in-house legacy systems during the Operations and Maintenance (O&M) Phase. These systems had been certified and accredited and released into the full-scale production for sustained use and operations/maintenance support. We ensured the daily care and feeding, operational enhancements and upgrades were performed and successfully executed.

Naval Research Laboratory (Prime)

V-Tech worked closely with NRL's IT Security Group in support of their Certification and Accreditation approvals for both internal and external Navy-wide operational systems. V-Tech generated the documentation required to comply with all DIACAP, NIST and RMF activities as defined in DoD8510.01 including but not limited to: PIA and e-authentication; SIP and reviews of IT portfolio compliance; control validation; ports, protocols and cross-domain solutions network support; network mapping; test plan development (retina, STIGs, COBIT, industry standards); scorecard reviews.

Professional Services

Center for Medicaid/Medicare Services (Prime)

V-Tech provides Legal Research and Analysis Assistance to CMS Inpatient Psychiatric Facilities Prospective Payment System, Partial Hospitalization Program, End Stage Renal Disease, and Religious Non medical Health Care Institutions programs. This includes rule making assistance, and writing on Medicare Payment Policy for End Stage Renal Disease, Inpatient Psychiatric Facilities Prospective Payment System and Partial Hospitalization Program issues.

Administration for Children and Families (ACF) (Subcontractor)

V-Tech supports the Administration for Children, Youth, and Families (ACYF) in maintaining the Child Welfare Information Gateway, the largest clearinghouse for child welfare information. Our team, consisting of Child Welfare Subject Matter Experts, Project Managers, Content Specialists, and Writer/Editors, assists in the creation, maintenance, and dissemination of information to the public, helping to minimize gaps in child welfare. The V-Tech team is also responsible for the modernization and implementation of all webpages and updates as directed by ACYF.
